

Federal Outcome and PEP Reports Overview

Report Name

Re-Entry into Out-of-Home Care

Report Number

SM10A24

Performance Measure

Percentage of all children who entered out-of-home care during the reporting period, which had previously been discharged from placement within 12 months of entering out-of-home care.

Target Population

Children who are removed from home and enter out-of-home placement during the reporting period where the children have been discharged from a previous placement episode.

National Standard

8.6% or less of all children who enter out-of-home care during a reporting period will have been discharged from out-of-home care within 12 months of the most recent entry into care.

CFSR Performance Item(s)

Permanency Outcome 1, Item 5: Re-entries into foster care

Key Columns in Report

Summary	Column K provides re-entry rate for reporting period by site, county (ALL) and statewide; rate calculated by adding percentage totals for 0-12 Month and 13-24 Month rows (NOTE: Columns L-U break out this population into smaller time frames, e.g. Within 1 day, 2 Days-3 Months, etc.)
Case-Level Detail	Column AK provides the most recent/current Removal Date during the reporting period Column AQ provides the previous episode Discharge Date

Other Comments/Considerations

Report includes only cases where the child has removal date documented in the Out-of-Home Placement window for the reporting period. The calculation for the National Standard (above) is established using available data from all states and is based on data reflecting a one-year period of activity.
